Medtronic

Welcome Jim Smith!

Read how patients like yourself use WelcomeHeart. See [Patient Stories](#) in the **Contacts** area.

Your Home Monitoring

Completed successfully.

No abnormalities detected.
Detailed home monitoring results can be viewed in the **Records** area.

Your pacemaker is OK, but its battery may be within a year of needing replacement. Your doctor will monitor it at your regular appointments. We would be pleased to provide considerations for the replacement decision you will make with your physician.

You have NOT taken your Lasix today! Please take one today and acknowledge on your home monitor. Feeling symptoms? Wondering whether you need to contact your doctor? A **Symptom Checker** is available in the **Information** area.

✓ **Did you know**
You can learn about [your pacemaker](#) in the **Information** area.

✓ **Did you know**
[Discussion Groups](#) and [Support Groups](#) made up of patients like yourself are available in the **Contacts** area.

? **Questions**
See answers to [Frequently Asked Questions](#) from other patients in the **Information** area.

At Medtronic we produce the most reliable and innovative medical technology available in the world! Read [About Medtronic](#) in the **Information** area.
